

# 2019 Fruit Chemical Use Survey

**United States Department of Agriculture**  
National Agricultural Statistics Service

## YOUR PARTICIPATION IN THIS SURVEY IS IMPORTANT!

- A representative from USDA will contact you soon to complete a survey questionnaire between October 2, 2019 through February 3, 2020.
- Our interviewer will ask questions about the types of fertilizers and pesticide applications you use on your fruit crops, and pest management practices.
- To make the interview process quicker, please have your spray records available.

Thank you for your participation! By responding, you represent and give voice to thousands of farmers like you across the nation.
