

Work for the NATIONAL ASSOCIATION OF STATE DEPARTMENTS OF AGRICULTURE

Farmers, ranchers, and others in agriculture require reliable information on production, supplies, marketing, prices, weather, and a vast array of other inputs. Up-to-date agricultural statistics help to develop a stable economic atmosphere and reduce risk in production, marketing, and distribution operations. Agricultural statistics are essential in the planning and administration of federal and state programs, informing legislation for the promotion of agriculture in Congress, and drives market prices and production decisions for America's farmers and ranchers.

NASDA ENUMERATORS ARE AT THE ROOT OF THIS CRITICAL DATA.

Since 1972, NASDA has employed enumerators to collect agricultural data on behalf of the United States Department of Agriculture's (USDA) National Agricultural Statistics Service.

PERKS OF THE JOB

- Work a part-time, flexible schedule
- Get paid to work in your community
- Learn about where your food comes from and who produces it
