Now that you have finished the above practice:

Go through the instrument again after completing the above script, and ensure that you are familiar with all the survey questions. Feel free to make up your own answers to questions and note what generates warnings, errors, etc.

Suggested practice examples to explore:

- An out of Business operation.
- An operation that's in business but doesn't have chickens
- An operation with only Hatchery Supply Flocks, or both Table Egg and Hatchery Supply, or neither.
- Use extreme values on items to check warnings are in place.

If you notice that something that does not seem to be working as it should within the instrument, please bring it to the attention of a coach or supervisor so that they may look into it.
