

# NASS Survey Training

## Peach Production Inquiry-May 2022 (PEACH AP)

**United States Department of Agriculture  
National Agricultural Statistics Service**

NOD-Training Group  
April 2022

# General Survey Information

- Project Code: **134-Non-Citrus Fruit Survey**
  - Looking for **2022** *expected* production of Freestone and Clingstone peaches
- Questionnaires:
  - Mailed out around April 22
  - Web reporting option available.
- Release:
  - *Crop Production*
  - May 12, 2022 noon EST

# 2020 California Peach Production

- Accounted for about 76% of the US peach production
- 35,000 bearing acres
  - 19,000 ac Freestone
  - 16,000 ac Clingstone
- Average yield of 13.4 tons/ac
  - 11.6 t/ac for Freestone
  - 15.5 t/ac for Clingstone

# It's The Pits

- Freestone Peaches: Flesh separates easily from the stone.
  - When the fruit is cut in half, there is easy separation at the pit and the pit can be removed by hand
    - May be preferred for eating, easier to utilize in home canning
- Clingstone Peaches: Flesh that clings to the stone
  - When cut in half, very difficult to separate the two halves because the flesh is stuck to the pit
    - Used for commercial canning and are mechanically separated

# Screening for Fruit Tree Acres

- Any peach tree acres in **2022**?
  - If “**NO**”, Will have peach tree acres in future?
    - Yes, No, DK, all lead to Conclusion
- No additional screening questions at this point, so good notes about the operation’s status are *vital*
  - No agricultural activity? New operator? Another other info?

# Survey Questions

- Any Freestone Peach tree acres?
- Total acres of Freestone peaches
  - Of these, how many were bearing age this year
- Expected total production for 2022
  - Quantity, unit, pounds per unit
- Same questions for Clingstone peaches
  - Except: we are looking for **total production** in **TONS**
    - No other units are available to report in

# Things to Watch Out For

- Bearing acres cannot be greater than total acres
- Bearing acres reported but no production reported
- No bearing acres but production reported
- Yield seems high or low
  - Total production/bearing acres (in pounds)

# Special Request for OoB Records

- **2022 Census of Agriculture**
  - Mails out this December
  - **We need to contact every operation that was in business for any part of 2022**
  - If an operation is **Out of Business**
    - **Please ask if they were in business at any time during 2022 and leave a note**
    - We can update the record to still be mailed the Census form

# Conclusion

- Referring to 2022 crop year *expected* production
- Watch the decimal points:
  - Acres, pounds per unit
- Leave notes explaining any odd situations
- Practice some examples on your iPad
- Ask your supervisor or RFO if you have any questions
- Have a “Peachy” Survey!
