#### **NASS Survey Training**

# Trout Production Survey - January 1, 2023 (TROUT PDI)

United States Department of Agriculture National Agricultural Statistics Service

#### Who uses the Data?

- Government agencies: To determine sustainability, size, and structure of the industry for planning, policymaking, research and market analysis.
- Growers: Decisions about the future of their operations (expand/reduce production or compare production volumes/pricing points with state and U.S. averages).
- Businesses/Suppliers: Determine location of facilities for producers, plan for production/marketing of new products.
- Extension/University: Research needs and justify research funding and programs for new or improved production methods.

#### **General Survey Information**

- Project Code: 170 Aquaculture Survey
- Questionnaires:
  - Mailed out December 19
  - Web reporting available
- Release:
  - Trout Production, February 27, 3:00 ET

#### Trout Interviewer's Manual

- Chapter 1 General Information
- Chapter 2 Terms and Definitions
- Chapter 3 Survey Procedures
- Chapter 4 Screening
- Chapter 5 Completing the questionnaire
  - Some good clarifying information for questions
- Appendix 1 Trout Length/Weight Table

#### **Definitions**

- **12" or longer trout**: Grown commercially for food, usually weighing ¾ 1½ pounds.
- 6" 12" trout: Usually stockers weighing less than ¾ pound. Can be sold as foodsize.
- **Eggs**: Taken from female broodfish for production purposes.

**Trout Species** 

**Broodfish with Eggs** 

## Survey Questions: Identification

- 1. Any water area used to raise trout/trout eggs in 2022?
  - YES: Survey
  - NO: next screening/identification question
- Any hatchery inventory or trout production on the operation during 2022?
  - YES: Survey
  - NO: next screening/identification question
- 3. Any trout sold during 2022?
  - YES: Survey
  - NO: next screening/identification question
- 4. Distribute trout/trout eggs for restoration, conservation, or recreational purposes during 2022?
  - YES: Survey
  - NO: next screening/identification question
- 5. Any trout on the operation in the future?
  - Has operation been sold, rented or turned over to someone else?

## Survey Questions: 2022 Sales

- Total number: 12 inches or longer sold
  - Total live weight
  - Total sales (live weight price)
- Total number: 6 inches to less than 12 inches sold
  - Total live weight
  - Total sales (live weight price)
- Total number: 1 inch to less than 6 inches sold
  - Total live weight
  - Total sales (live weight price)
- Total number: trout eggs
  - Total sales

**Feeding Trout** 

**Harvesting Trout** 

## Survey Questions: 2022 Sales

- Percent of Sales by outlet (Point of 1<sup>st</sup> sale)
  - Only for sales of trout 6-12 inches and 12 inches or longer.

- Point of first sale to:
  - Processors
  - Retail Outlets
  - Recreational Stocking
  - Government Agencies
  - Other Outlets (Specify)

- Live Haulers/Brokers
- Direct to Consumers
- Wholesale to Other Producers
- Exports

### Survey Questions: Losses

- Total number and total pounds for trout lost during 2022 due to:
  - Disease
  - Theft/Vandalism
  - Chemical Contamination
  - Drought
  - Flood
  - Predators
  - Other Causes (Specify)

### Survey Questions: Trout Distributed

- **NOTE**: Section 4 *only* applies to fish/eggs distributed (not sold) for restoration, conservation, or recreational purposes.
- Quantity, total pounds, and estimated total value distributed of:
  - 12 inches or longer
  - 6 to less than 12 inches long
  - 1 inch to less than 6 inches long
  - Trout eggs

#### **Trout Production (2021 Data)**

- Trout Total Value of sales:
  - \$97,300,000 (1% increase from 2020)
  - Idaho accounted for 39% of total value of sales
- Average Prices:
  - 12" and longer trout: \$2.01 per pound
    - 67.3% sold to processors
  - 6"-12" trout: \$4.30 per pound
    - 52.4% of sales were for recreational stocking
  - 1"-6" trout: \$241 per 1,000 fish
- Trout Losses: 54% of all losses are due to disease

## Things to Remember

- Almost all of New Mexico trout production consists of State run hatcheries that raise trout for stocking of local rivers and lakes
  - No Sales

## Things to Watch Out For:

- Percentages of "Sales By Outlet" should equal 100% of total sales.
- Sales should be the "Live Weight Price" received.
  - Cleaning charges should be excluded.
- Watch out for high or low prices per pound compared to other operations.
- Leave notes explaining any high amounts of fish lost.

#### Conclusion

- Please leave plenty of notes explaining anything you think the statisticians may need to know.
- Be sure to go through the survey questions on your iPad before interviewing.
- Call your supervisor or Regional Field Office if you have any questions
