

National Association of State Departments of Agriculture

Subject of Emerging Issue:

Dicamba Availability

Submitted by: Corresponding Policy Section & Statement:

NASDA Board of Directors

Corresponding Policy Section & Statement:

Section 9 Pesticide Regulation

Text of Emerging Issue:

In light of the February 6th, 2024 Arizona Federal District Court decision on dicamba, NASDA is deeply concerned about the impacts on the 2024 growing season. NASDA strongly encourages EPA to immediately use all available discretion regarding existing stocks to ensure channels of trade are not disrupted. We further request that the EPA work with manufacturers to fast-track registration prior to the 2025 growing season.

Adopted: 2/7/2024
