

National Association of State Departments of Agriculture

Requires 2/3 Vote

Subject of Policy Amendment 16:

Support for the National Pipeline Transportation System

Section Number or Title to be Amended:

13.6 Bioeconomy and Energy

Submitted by:

Commissioner Doug Goehring, North Dakota

Text of Policy Amendment:

NASDA supports the continued development, construction and operation of safe, efficient, reliable, ecologically friendly, and cost-effective petroleum and gas pipelines. Federal agencies should exercise good governance by promoting regulatory certainty and continuing to facilitate the continued development, expansion, maintenance, and ongoing safe operations of our national pipeline transportation system that cleanly and consistently moves extraordinary quantities of energy products within and across our nation in support of agriculture, industry and consumers, as well as national security.

Adopted: February 26, 2025
