NASDA announces new member of public policy team

ARLINGTON, Va. – The National Association of State Departments of Agriculture is excited to announce the hiring of Logan Moss as Associate Director Public Policy. As Associate Director, Moss will lead NASDA’s [Animal Agriculture](#) and [Natural Resources and Environment Policy](#) Committees.

“I am honored to join the NASDA team and help advance its critical mission of enhancing American food and agricultural communities through policy, partnerships and public engagement,” Moss said. “My background has given me a unique perspective of the challenges producers face and the importance of sound, collaborative policymaking in supporting this vital industry. I look forward to working with state agriculture departments to ensure agriculture continues to have strong representation in our nation’s capital and remains a cornerstone of our economy.”

Moss joins NASDA as a graduate of the University of Arkansas where he earned a master’s degree in agricultural economics, and he most recently served as an Extension Associate under the Flinchbaugh Chair in Agricultural Policy at Kansas State University. As a lifelong agriculturalist and outdoorsman, he brings valuable expertise and a deep passion for agriculture, making him a strong asset to NASDA’s policy team.

Logan’s first day at NASDA as a full-time employee is March 17, 2025.

###

NASDA is a nonpartisan, nonprofit association which represents the elected and appointed commissioners, secretaries and directors of the departments of agriculture in all 50 states and four U.S. territories. NASDA enhances American food and agricultural communities through policy, partnerships and public engagement. To learn more about NASDA, please visit www.nasda.org.
