### **DISCLAIMER**

The information, as provided, is for informational purposes only and should not be interpreted as complete, nor should it be considered legally binding. Coordination with both your state and the destination state plant regulatory agency listed above may be necessary to stay up-to-date on revised requirements.

### NURSERY STOCK DEFINITION

All field-grown and native trees, sod, shrubs, herbaceous perennials, vines, cuttings, grafts, scions, buds, fruit pits, and other seeds of fruit and ornamental trees and shrubs; also other plants and plant products for, or capable of, propagation, excepting field, vegetable and flower seeds, bedding plants, and other herbaceous plants, bulbs and roots.

## GENERAL SHIPPING REQUIREMENTS

Any nursery stock shipped into Illinois must have plainly and legibly marked therein or affixed thereto, or on, or to the car or other vehicles carrying the same, or on the bundle, package, or other container of the same in a conspicuous place, a statement showing the names and addresses of the consignor and the consignee, the general nature of the contents, together with a certificate of inspection of the proper official of the state, territory, district, or country from which it was brought or shipped, showing that such nursery stock was found or believed to be free from insect pests and plant diseases.

Non-resident shippers of nursery stock must provide a copy of their certificate with each shipment into the State. Illinois accepts state lists of certified nurseries in lieu of individuals registering with the state.

#### NOXIOUS WEEDS

Ambrosia artemisiifolia (within municipal limits)	Common Ragweed
Ambrosia trifida (within municipal limits)	Giant Ragweed
Cannabis sativa	Marijuana
("Noxious weed" does not include industriunder the Industrial Hemp Act)	al hemp as defined and authorized
Carduus nutans	Musk Thistle
Cirsium arvense	
Sorghum halapense and S. almum	Johnsongrass and other Perennial
J	ohnsongrass x sorghum crosses with rhizomes
Sonchus arvense	Sowthistle
Pueraria labata	Kudzu

## General Description of Legislation:

Every person shall control the spread of and eradicate noxious weeds on lands owned or controlled by him and use such methods for that purpose and at such times as are approved and adopted by the Director of the Department of Agriculture.

The following are considered **exotic weeds** by the Illinois Department of Natural Resources, and are not allowed to be bought, sold, distributed, offered for sale, or planted within the state without an IDNR issued permit:

Rosa multiflora	
Lonicera japonica	Japanese Honeysuckle
Lythrum salicaria	Purple Loosestrife
Pueraria labata	Kudzu
Rhamnus arguta	Saw-toothed Buckthorn
Rhamnus cathartica	
Rhamnus davurica	Dahurian Buckthorn
Rhamnus frangula	Glossy Buckthorn
Rhamnus japonica	
Rhamnus utilis	
Celastrus orbiculatus	Oriental Bittersweet
Conium maculatum	Poison Hemlock
Dipsacus sp	
Elaeagnus angustifolia	
Elaeagnus pungens	
Elaeagnus umbellata	
Fallopia japonica	
Fallopia sachalinensis	
Fallopia xbohemica	
Ficaria verna	
Heracleum mantegazzianum	Giant Hogweed
Lonicera fragrantissima	
Lonicera maackii	
Lonicera morrowii	Morrow's Honeysuckle
Lonicera tatarica	•
<i>Tamarix sp</i>	
<u>•</u>	

## General Description of Legislation:

It is illegal for anyone to buy, sell, distribute, or plant any parts of listed species without a permit. One exception is the commercial propagation of listed species intended for sale outside of the state of Illinois. Permits may be obtained to for the sale of exotic olive (autumn and Russian) if the seeds are rendered unviable.

### IL - 4 of 6

The following are considered **injurious aquatic weeds** by the Illinois Department of Natural Resources, and are not allowed to be bought, sold, distributed, offered for sale, or planted within the state without an IDNR issued permit:

Azolla pinnata	Mosquito fern
Butomus umbellatus	Flowering rush
Caulerpa taxifolia	Mediterranean killer algae
Egeria densa (syn. Elodea densa, Anacharis densa	a)Brazilian elodea or Brazilian waterweed
Eichhornia azurea	Anchored water hyacinth
Hydrilla verticillata	Hydrilla
Hydrocharis morsus-ranae	European frogbit
Hygrophilia polysperma	Miramar weed or Indiana swampweed
Ipomoea aquatic	Chinese waterspinach or swamp morning-glory
Iris pseudacorus	Yellow flag iris or tall yellow iris
Lagarosiphon major	Oxygen weed or African elodea
Limnophila sessiliflora	Asian marshweed/ambulia
Monochoria hastate	Arrowleaf or false pickerelweed
Monochoria vaginalis	Heartshape or false pickerelweed
Myriophyllum aquaticum	
Myriophyllum spicatum	Eurasian watermilfoil
Najas minor	Brittle naiad or brittle water nymph
Nymphoides peltata	Yellow floating heart
Ottelia alismoides	Duck lettuce
Potamogeton crispus	
Sagittaria sagittifolia	Arrowhead
Salvinia auriculata	Giant salvinia
Salvinia biloba	Giant salvinia
Salvinia herzogii	Giant salvinia
Salvinia molesta	Giant salvinia
Sparganium erectum	Exotic bur-reed
Stratiotes aloides	
Trapa natans	Water chestnut

Calonectria pseudonaviculta (Boxwood Blight) – Boxwood Blight was confirmed at three isolated locations in Illinois in late 2016, with periodic detections within the nursery dealer settings, however there remains no reason for officials to believe it is widespread and established in the state. The Illinois Department of Agriculture declared it a nuisance on April 3, 2017, requiring eradication on confirmed properties, and all confirmed properties to date have been abated per protocol. The Department is utilizing the Boxwood Blight Compliance Agreement for Production Nurseries to fulfill requirements for the Boxwood Blight Cleanliness Program.

Illinois facilities are encouraged to contact their local inspectors if interested in participating in the certification program. Participation will include certification stating "The nursery has been

inspected and found to be apparently free of Boxwood Blight, *Calonectria pseudonaviculata*. The responsible party has agreed to the stipulations of the compliance agreement designed to prevent the introduction and minimize the risk of spreading Boxwood Blight." Compliance agreement holders will be listed on the Departments website link, <a href="https://www.agr.state.il.us/boxwoodblight">https://www.agr.state.il.us/boxwoodblight</a>

## **QUARANTINES OR ADDITIONAL REQUIREMENTS**

Agrilus planipennis (Emerald Ash Borer) – The Illinois Department of Agriculture rescinded its regulations and internal quarantine. Permitting or certification is no longer required when moving ash materials or hardwood firewood within or throughout the state. All of Illinois remains included in the Federal Quarantine, so permitting or certification for these products will be required by USDA for movement of these materials out of Illinois into areas outside of the Federal Quarantine, but not areas included in Federal Quarantine.

Note: The Illinois Department of Agriculture maintains its firewood importer certificate program, so please note people looking to import firewood into Illinois for large scale retail and distribution purposes still need to register with the Department. See below for link.

*Lymantria dispar* (European Gypsy Moth) – State and Federal regulations and quarantines apply. As of June 5, 2020, the counties of Cook, DuPage, Kane, Kendall, Lake, LaSalle, McHenry, and Will are under quarantine. Winnebago and Boone Counties are pending addition, however the amendment has been delayed due to the COVID-19 pandemic and surrounding challenges

Geosmithia morbida (Thousand Cankers Disease) and Pityophthorus juglandis (Walnut Twig Beetle) – The Illinois Department of Agriculture maintains an external quarantine on TCD/WTB regulated materials. Regulated Juglans spp. material from known infested areas, quarantined areas, or areas suspected or pending confirmation are prohibited without certification, or if said materials transit through such areas. Definitions and general shipping requirements are found in the Illinois TCD Compliance Agreement, which is recommended for any entity looking to bring Juglans spp. material into Illinois; <a href="http://www.thousandcankers.com/media/docs/IL\_TCD\_Compliance\_Agreement\_2\_2012.pdf">http://www.thousandcankers.com/media/docs/IL\_TCD\_Compliance\_Agreement\_2\_2012.pdf</a>
Pre-notification is required for regulated articles originating from a confirmed state.

*Tomicus piniperda* (Pine Shoot Beetle) – The Illinois Department of Agriculture rescinded its regulations and internal quarantine. All of Illinois remains in the Federal Quarantine.

*Papillia japonica* (**Japanese Beetle**) – Illinois remains a Category 3 state per the U.S. Domestic Japanese Beetle Harmonization Plan.

**Phytopthora ramorum** (**Sudden Oak Death**) – 7 CFR 301.92 requires pre-notification of shipments originating from quarantined areas (counties) containing regulated host plants associated with *P. ramorum* in accordance with 7 CFR 301.92-11.

### IL - 6 of 6

Note: all pre-notifications shall be faxed to 815-787-5488 Attn: Scott Schirmer or e-mailed to Scott.Schirmer@illinois.gov

**Hardwood (non-coniferous) firewood** – Anyone bringing hardwood firewood into Illinois must register with the Department annually via an Illinois Firewood Importer Certificate.

The 2020 application can be found at;

https://www2.illinois.gov/sites/agr/Insects/Pests/EmeraldAshBorer/Documents/FirewoodImporter.pdf

Compliance agreements may be required, but are always recommended.
