How to match CAPI to NRI Screener:

- 1) In CAPI = open information icon
- 2) Check LABELS for
 - NRI Point
 - NRI County ID
- 3) Log into NRI Screener, in dropdown:
 - Enter State
 - Enter NRI County ID
 - Select NRI Point

NOTE: NRI County <> County ID

NRI County 109 <> County 129

County ID = Where Operator LIVES
NRI County = Where the FIELD is located

There are NO assigned records in the NRI system. Only complete if you have the NRI point in CAPI. There are 8 points located in this county; however, the record will be assigned to the enumerator that lives **closest** to the operator.

My records are checked out by my user device on another device.

My Points

Point	Stored Locally?	Saved to Server?	Screener Complete?	Survey Required?	Survey Complete	Return
19169_999999R_1	Y	Y	Y	Y	N	<div>Return</div>

- Records need 'returned' EVERY day.
- Log out of NRI Screener – do NOT close windows while still logged in.
- If your points are checked out by you or someone else:
 - o Email: nri-ceap-support@usda.gov

I need more Operator ID cards.

- Complete interviews with operators.
- Enter 999-999-999 in NRI Screener TEMPORARILY!
- Let your Associate Director know you need more Operator ID cards.
- You MUST reopen records and enter VALID Operator ID numbers once you have numbers from Associate Director.

I have points assigned to me outside my old NASS region.

- Log into NRI Screener
- Under "Choose a Task" select "Request CEAP Access"
- Select the old NASS region associated with the point.
- Be patient! It may take 1 business day to receive 'approved' email.

- [Log Out](#)

The operator in CAPI does not operate the point.

- Find the person operating the point.
- In CAPI, update information in 'Address Verification'
 - o If you do NOT update operator information, Phase 2 will keep original operator contact information.
